RECTORSEAL®

ClearDrain™ PVC

Zinc-Infused Biocide-Free PVC Piping System

Reduce the growth of **slime-blocking bacteria** by **up to 99.9%**

ClearDrain PVC has up to 1,000 times the cleaning performance of a conventional SCH 40 PVC

ClearDrain PVC

Biocide-Free, Slime-Blocking PVC Piping System

FEATURES

- Passive-action clog prevention technology containing 3% natural mineral Zinc
- Standard PVC pipe installation practices
- Long-lasting with no migration or loss of effectiveness
- Contains no chemicals, biocides, or coatings
- Conforms to ASTM D1785 (Pipe) & D2466 (Fitting) standards
- UV resistant

APPLICATION • Advanced condensate drainage system reduces the attachment and growth of white slime/biofilm that causes blockages and water leaks for HVAC/R condensate

RECOMMENDED FOR • Commercial & Light Industrial HVAC, Refrigeration, Mechanical Contractors, Architectural/Design Firms, Grocery/Retail Facilities and Industrial Piping Systems, and domestic residential, commercial, and industrial piping systems.

5YR WARRANTY

⚠ **WARNING** This product can expose you to chemicals including Titanium Dioxide, which is known to the State of California to cause cancer. For more information, go to www.P65Warnings.ca.gov.

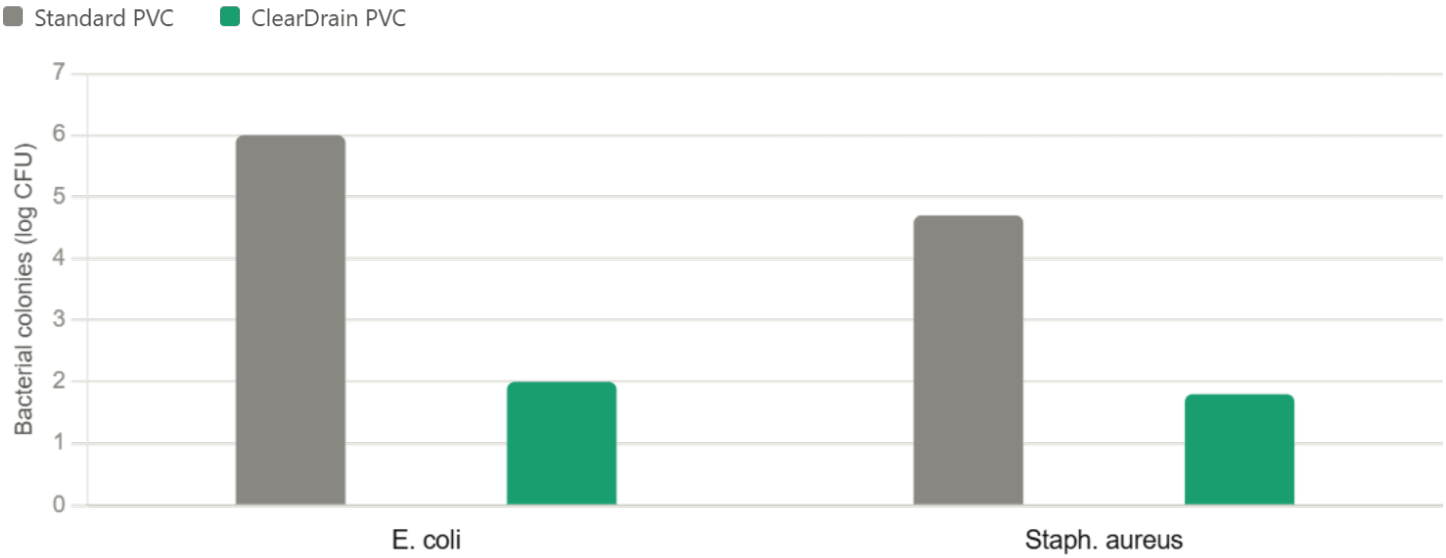

Technology

The Independent ISO-22196:2011 Standard measures antibacterial activity on plastics and other non-porous surfaces and verifies the antimicrobial property of the ClearDrain PVC surface, identifying up to Log3 or 99.9% efficacy of the technology or higher. This means the number of germs on the surface is up to 99.9% less on a surface made with the passive-action technology in ClearDrain PVC compared to a normal PVC pipe surface. The technology has broad-spectrum performance but has also proven effective against viruses, molds and fungi, biofilm, and fouling.

Up to 99.9% Reduction — Proven by independent testing

Standard PVC lets bacteria grow. ClearDrain PVC doesn't.

Bacterial colony counts after 24 hours — independent ISO 22196:2011 testing, November 2024

E.Coli increases (grows) on the standard pipe by almost 50%

E. Coli decreases by 99.9% (growth) on the ClearDrain PVC in just 24hrs

Staph. A increases (grows) on the standard pipe

Staph A decreases by 99.9% (growth) on the ClearDrain PVC in just 24hrs

RECTORSEAL HVAC DIVISION

RectorSeal provides industry-leading digital and print support materials for its extensive chemical and mechanical solutions that include:

- Technical Product Information
- Marketing Support Materials
- Engaging Product Demonstration Videos
- Informative SDS and Product Data Sheets
- On-demand and Live Training and Webinars
- Learning Management System (LMS) support via RectorSeal Academy
- Informative Distributor and Sales Representative Tools
- Industry-related Tradeshow and Events Information
