- Directional volume diffuser
- Designed to handle high volumes of air with horizontal flow
- 14 air patterns available

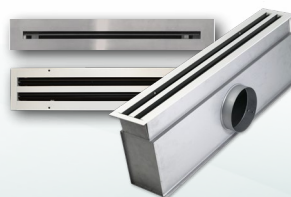

AD & EAD Series Access Door & Equipment Access Doors

- 1/2" dual angular louvers for strength and maximum free area
- Product designed for safe access to equipment – number of doors
- Doors are individually hinged and removable

935 Series Steel Blade Grille with 45 Degree Fixed Blades

- Blades are parallel to longest dimension
- Blades spaced at 2/3"

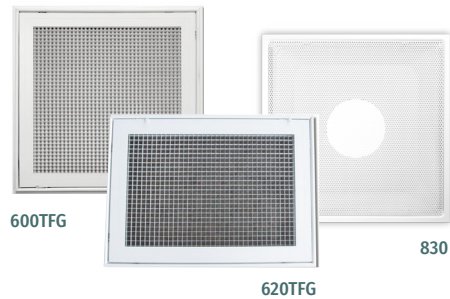

LSD Series Linear Slot Diffuser Supply and metal Plenums

- 6 frame styles available
- Available in 1/2", 3/4", and 1" slot widths ranging from 1-8 slots
- 144" single piece construction capabilities

Grilles/Registers

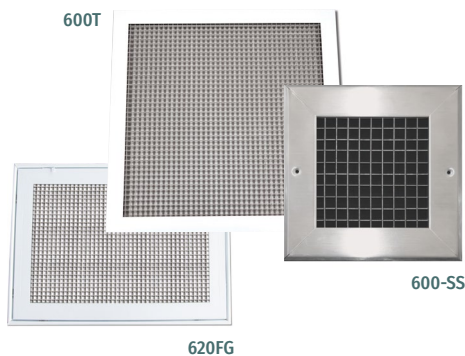

Perforated T-Bars, Surface Mount, and Spiral

Perforated Grilles and Registers

Shoemaker perforated grilles are high quality and easy to install. They have 3/16" holes on 1/4" staggered centers, providing 58% free area. We offer various mounting styles, such as surface, T-Bar, and spiral mounts, to fit your needs. We also manufacture perforated filter grilles with 1", 2", or 4" filter depth, available as a surface or T-Bar mount. With different mounting styles, filter depths, and color choices, Shoemaker perforated grilles are a great addition to your project.

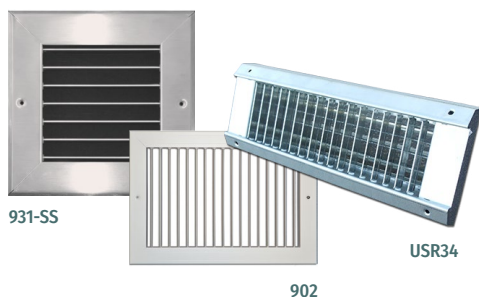

Lattice Grilles, Surface Mount, T-Bar, and Filter Grilles

Lattice Grilles

Shoemaker lattice grilles are available in surface or T-Bar mount options, whether you need a return air grille or a return air filter grille. Several customization options are available to meet your specifications. You can select a 0° or 45° angle, with or without a damper, with or without a no-labor collar (on square sizes), and a standard or designer color. You can also change the lattice size to manufacture the grille according to your needs, creating a more visually appealing space.

Louvered Grilles and Registers, Surface Mount, T-Bar, and Spiral

Louvered Grilles and Registers

Shoemaker louver grilles are highly aesthetic and easy to install. They are available for surface, T-Bar, or spiral mount with adjustable blades or for surface or T-Bar mount with fixed blades. Shoemaker also manufactures louvered filter grilles with 1", 2", or 4" filter depths.

Filter Grilles, Louvered, Lattice, and Perforated

Filter Grilles

Shoemaker filter grilles are high-quality return air filter grilles that are easy to install. The doors are reversible—4-way on square and 2-way on rectangular sizes. Available with lattice, perforated, or bar face styles and come in 1", 2", or 4" filter depth. These grilles are suitable for surface or T-Bar mount installation.

Diffusers

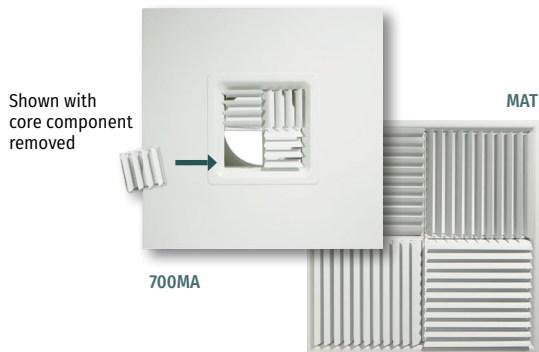

Curved Blade Surface Mount and T-Bar

Curved Blade Diffusers

Shoemaker curved blade diffusers offer an aesthetic way to provide 1, 2, 3, or 4-way airflow. You can control how much air flows in each direction with individually adjustable blades. Available in surface or T-Bar mount and various colors, Shoemaker's curved blade diffusers will add style to your project.

Modular Core Surface Mount and T-Bar

Modular Core Diffusers

Shoemaker modular core diffusers offer an aesthetic and flexible way to provide 1, 2, 3, or 4-way airflow. With removable cores, you can control the air pattern in the field. Available in surface or T-Bar mount and various colors.

Note: Fire rated modular cores available

Step-Down Surface Mount and T-Bar

Step-Down Diffusers

Shoemaker step-down diffusers are high-quality and designed for high-volume air delivery in a 360° air pattern. Made of steel (aluminum is available on some products), step-down diffusers have plaque, 3, or 4-cone faces. Available in surface or T-Bar mount and various color choices.

Note: Fire rated T-bar diffusers and aluminum construction available

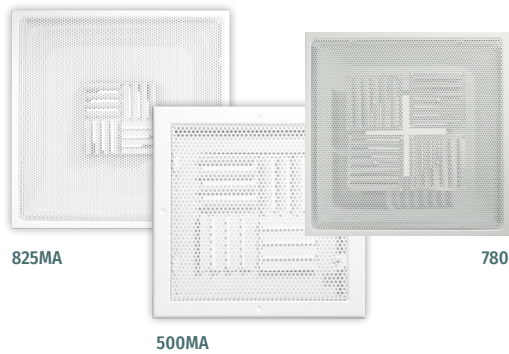

Plaque Surface Mount and T-Bar

Plaque Diffusers

Shoemaker plaque diffusers are high-quality and designed for high-volume air delivery in a 360° air pattern. Made of steel (aluminum is available on some products) and available in surface or T-Bar mount, in various color choices.

Perforated Surface Mount and T-Bar

Perforated Diffusers

Shoemaker perforated diffusers provide a 4-way air pattern. They are made of steel, with 3/16" holes on 1/4" staggered centers. Available with modular core or curved blade air deflection and a surface or T-Bar mount. Hinged faces allow you to adjust the optional damper as needed.

Round Spirals and Surface Mount

Round Diffusers

Shoemaker round diffusers are high-quality, aesthetically pleasing, and easy to install. The air pattern, mounting style, and finish vary depending on the selected model, but any of our round diffusers will make a great addition to your project.

Louvered Surface Mount and T-Bar

Louvered Diffusers

Shoemaker louvered diffusers provide a 1, 2, 3, or 4-way air pattern. The surface mount louvered diffuser is made of steel or aluminum, depending on size and air pattern. The T-Bar louvered diffuser is made of steel. Standard as a 4-way air pattern and Soft White finish, the louvered diffuser is customizable to fit your project.

Special Applications

Fire Rated, Security Grilles, Dampers and Accessories

Special Applications

Shoemaker's fire-rated products are UL listed and have various fire resistance ratings. Our security grilles are constructed of steel for durability. Find peace of mind with Shoemaker's high-quality, customizable products.
