PRODUCT DATA SHEET

FALCON WATER CONNECTIONS

Copper Press Water Connectors

Description

Falcon corrugated stainless steel water connector is a flexible tube that is used to connect water appliances to water supply lines. It is made of high-quality 304 stainless steel helical tube construction with chrome plated brass nuts. Copper Press connectors provides a quick, easy, and flameless connection to any copper piping system and are compatible with all standard copper pressing tools.

These connectors are ideal for use in residential and commercial applications and are designed to withstand high pressure and temperature fluctuations. The chrome plated brass nuts at either end of the connector provide a secure and leak-proof connection to the water supply line. Follow the copper pressing tool manufacturer's installation instructions when using these connectors.

Application

Flexible stainless steel tube for connecting water supply lines to water appliances.

- 250 Maximum PSI
- -40° F to 220° F

Recommended Use

- Water Heaters
- Water Softeners

Characteristics | Features

- 304 Series stainless steel
- Maintains optimal flow with full port design
- 100% leak tested
- Chrome plated brass nuts
- High temp EPDM washer chlorine and chloramine resistant

ICC ES

Approvals

- Complies to ASME A112.18.6-2017
- Complies to CSA B125.6-2017
- ICC listed, tested & certified
- UPC, IPC, NPC, IRC compliant
- Complies to Minnesota plumbing code
- NSF 61 compliant
- NSF 372 compliant
- Approved by the Commonwealth of Massachusetts

Packaging

Code	Description	Qty per Case	Lbs per Case	Cubic Feet
Copper Press Water Connectors				
FSPP18	3/4" I.D. SS Flex with 3/4" FIP X 7/8" copper press X 18"	25	9.04	0.42
FSPP24	3/4" I.D. SS Flex with 3/4" FIP X 7/8" copper press X 24"	25	10.69	0.56
